

MAYLA FATHIN NADHIFA ULYA

Frontend & Product Engineer

Yogyakarta, Indonesia | maylafaat@gmail.com | +62 882-0086-99254 | [linkedin.com/in/maylafathinnadhifaulya](https://www.linkedin.com/in/maylafathinnadhifaulya) | github.com/Maylafathin12 | <https://maylafathin12.github.io/my-portfolio/>

PROFESSIONAL SUMMARY

Frontend & Product Engineer with 2+ years building production-grade digital products across EdTech, SaaS, fintech, and government sectors. Recognized for compressing 3-month development cycles into 1 month — approaching every build as a product problem first, not just an engineering task. Multiple award recipient. Seeking a full-time role where engineering and design speak to each other.

TECHNICAL SKILLS

Core Frontend	: React.js, Vite, TypeScript, JavaScript ES6+, HTML5, CSS3, Tailwind CSS
Creative & Motion	: Three.js, GSAP, Framer Motion, Canvas API
Backend & Data	: Supabase, PostgreSQL, RLS, REST API, Real-time Data Integration
Security	: Web Crypto API (client-side hashing), row-level security design, rate limiting
Tooling & Deployment	: Bun, Git/GitHub, Vercel, Cloudflare, Figma, PWA/Workbox
Design	: UI/UX, Design Systems, Responsive Design, Prototyping
QA & Engineering	: Manual Testing, Component-Driven Development, Web Performance Optimization, SOLID Principles
Languages	: Indonesian (Native), English (Professional), Malay (Professional)

PROFESSIONAL EXPERIENCE

Frontend Developer Intern · [Educativa.id](https://www.educativa.id)

November 2025 – May 2026 | Yogyakarta, Indonesia

- Engineered 6 distinct digital products in 6 months; consistently compressed 3-month development cycles to 1 month without quality trade-offs.
- Proactively designed and built 3 internal enterprise dashboards, including the GA Management System nominated for Top 5 Best Innovation Award without a formal brief.
- Achieved internship score of 98/100 with a perfect KPI score of 100/100.
- Earned 4 institutional awards: 2× Best Front-End & UI/UX Mentor, Best Intern (Maganghub), and Most Growth Mindset Person.

Growth Engineer Intern · [Dicoding Indonesia](https://www.dicoding.com)

April 2025 – June 2025 | Tangerang, Indonesia

- Launched the Dicoding DevCommunity Support program to scale tech communities nationwide.
- Architected the collaboration framework; grew and managed a network of 200+ active members.

Frontend Developer Intern · [DINKOMINFO Kab. Blora — Regional Government](https://www.dinkominfo.kab.go.id)

October 2024 – November 2024 | Blora, Central Java

- Redesigned and developed the Blora Regency's Command Center dashboard using Laravel, delivering a fully responsive and interactive user interface.
- Implemented real-time data visualization with interactive charts to enhance government monitoring and support data-driven decision-making

CTO & Lead Developer · [SAHAL EdTech — Startup](https://www.sahal.id)

February 2024 – September 2024 | Yogyakarta, Indonesia

- Served as primary technical decision-maker and software architect for the entire platform.
- Directed end-to-end development and system integration; elevated user satisfaction to 5/5 across 500+ active students.

Teaching Assistant — Software Testing & QA (STQA) · [Universitas Muhammadiyah Yogyakarta](https://www.muhammadiyah.ac.id)

February 2024 - June 2024 | Yogyakarta, Indonesia

- Delivered STQA coursework and mentored undergraduate students in industry-standard testing methodologies and code quality best practices.

SELECTED PROJECTS

[OterPulang](https://www.oterpulang.com) · Founder & Product Engineer · July 2026

Built a trust-first Lost & Found platform with zero-knowledge ownership verification, no admin, no way to fake a claim.

- 7-layer security architecture: client-side SHA-256 hashing with UUID salt, Canvas API blur + grayscale before upload, RLS across all tables, database-level rate limiting, SQL VIEW conditional data exposure, immutable chat log, and email obfuscation

- Automated pg_cron jobs for idle chat expiry (3/5/7-day warning system) and meetup auto-resolve — zero admin dependency - Real-time chat via Supabase Realtime + 3-second polling fallback, content moderation (500+ blocked patterns), meetup scheduling restricted 07:00–20:00

- Vitest unit tests (8/8 passing), PWA installable, bilingual (ID/EN), dark mode, Oxlint configured

Stack: React 19, TypeScript, Vite 8, Tailwind CSS v4, Supabase (PostgreSQL, Realtime, RLS, pg_cron, Storage), Web Crypto API, Canvas API, vite-plugin-pwa, Vitest, Bun

[Nirvaya Luvra](#) · *Founder & Product Engineer* · June 2026 - Present

Built a full-stack wedding PWA solo from zero: custom in-browser camera engine, real-time Guardian moderation, offline-first sync, and RLS database security. Zero app download required.

Stack: React 18, Vite, Bun, Tailwind CSS, Framer Motion, Supabase (PostgreSQL, Realtime, Storage), IndexedDB, PWA (Workbox), Canvas API, JSZip

[Eirenne](#) · *Founder & Product Engineer* · June 2026

Immersive emotional web experience with six interactive worlds, cinematic transitions, and ambient storytelling

Stack: React, Vite, TypeScript, Framer Motion, Tailwind CSS

[MyPitlane](#) · *Founder & Product Engineer* · May - June 2026

Formula 1 virtual photobooth with full in-browser photo pipeline — Canvas compositing, sticker decoration, and email delivery. Zero backend, zero login.

Stack: React 19, Vite 8, Tailwind CSS, Canvas API, Camera API, EmailJS

[MyRadio](#) · *Founder & Product Engineer* · May - June 2026

F1 floating music player with Document Picture-in-Picture API for OS-level widget overlay — shipped in 2 weeks.

Stack: React 19, Vite 8, Tailwind CSS v4, Bun, Document PiP API

[Nexus HR](#) · *Solo Frontend Engineer & UI/UX Designer* · May 2026

Engineered a full-featured ATS dashboard solo, transforming Google Workspace spreadsheets into a structured hiring interface that centralizes pipelines, scores live interviews, and surfaces real-time visibility for C-suite hiring decisions.

Stack: React.js, Tailwind CSS, LocalStorage State, Google Workspace

[EduResearch AI](#) · *Sole Frontend Developer* · April 2026

Designed and engineered a production-ready AI platform in just 2 weeks against a 2-month timeline, receiving highly positive user feedback for its high-fidelity aesthetics and highly intuitive, frictionless UX.

Stack: React.js, Three.js, GSAP, Tailwind CSS

[Kelas Riset by Educativa](#) · *Frontend Developer* · January - April 2026

Inherited a degraded legacy codebase and rebuilt the entire frontend architecture from scratch for 6,900+ active users — a complete technical reset delivered in 30 days without disrupting the live user base.

Stack: HTML, CSS, JavaScript

EDUCATION

B.Comp.Sc. in Information Technology · Universitas Muhammadiyah Yogyakarta

2021 – 2025

- Bangkit Academy 2024 (Android Learning Path) — Google × GoTo × Traveloka
- Teaching Assistant: Software Testing & Quality Assurance (STQA)

AWARDS & CERTIFICATIONS

- Top 5 The Best Innovation Award Nominee — GA Management System, Educativa.id (2026)
- Best Intern (Maganghub) · Most Growth Mindset Person · 2× Best Front-End & UI/UX Mentor — Educativa.id (2026)
- 1st Place National — PKP2 National Competition (SEHAT+ App, 2023)
- Most Favorited Web Award — Web Development Competition (YUMMY Cafe, 2023)
- 24 certified courses, Dicoding Indonesia — Frontend · Mobile · AI & Cloud · Data & Python · Foundation

ORGANIZATIONS

Google Developer Student Clubs (GDSC) · Google Women Techmakers (WTM) · Research Student Group (KPM) · Student English Activity (SEA)
